Get started with your gradio Space!

Your new space has been created, follow these steps to get started (or read the full [documentation](#))

Start by cloning this repo by using:

HTTPS

SSH

Use an access token to get password/credential

When prompted for a password, use an access token with write permissions.
Generate one from your settings: <https://huggingface.co/settings/tokens>
git clone https://huggingface.co/spaces/Mabitha/mabi-project

PowerShell

or

curl

Make sure the hf CLI is installed
powershell -ExecutionPolicy Bypass -c "irm https://hf.co/cli/install.ps1 | iex"

Download the Space
hf download Mabitha/mabi-project --repo-type-space

Create your Gradio app.py file:

import gradio as gr

def greet(name):
 return "Hello " + name + "!"

demo = gr.Interface(fn=greet, inputs="text", outputs="text")
demo.launch()

Then commit and push:

git add app.py
git commit -m "Add application file"
git push

Hint: Alternatively, you can [create the app.py](#) file directly in your browser.

Finally, your Space should be running on this page after a few moments!
